

COULEE REGION IMMIGRATION TASK FORCE

The Coulee Region Immigration Task Force received a grant from the Wisconsin Department of Health Services (DHS) through the Vaccination Community Outreach program for **\$20,800** to support and advocate for equal access to the COVID-19 vaccine for all residents in Wisconsin.

Currently, four Community Health Champions (CHC) are working in four different counties in the Coulee region (La Crosse, Monroe, Trempealeau, and Vernon) with Latinx individuals who are new, recent, or established immigrants. The goal is to share accurate information about the COVID-19 vaccine, encourage Latinx people to get the vaccine, and support them as they do so.

More information on DHS's Vaccination Community Outreach program can be obtained by calling 844-684-1064 or emailing DHSCOVIDVACCINEPUBLIC@WI.gov.
